Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites the limitation "W is in the ortho position" in structural formula IV. There is insufficient antecedent basis for this limitation in the claim.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 9 is rejected under 35 U.S.C. 102(b) as being anticipated by Chem Abs 95:80296 (1980). When L1 is a bond, R1 is an alkyl, R2 and R3 are each H, and W is an alkyl, then the claim is anticipated.

Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by CA 127:259879 (1997). When L1 is a bond, R1 is an alkyl, R2 and R3 are each H, and W is an alkyl, then the claim is anticipated.

Claims 8 and 10 are objected to as being dependent on rejected claims.
